**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Phillips on 1/04/2007.

The application has been amended as follows:

Claim 12 (Amended): A system for maintaining an application window on a display that has been transformed by a transformation matrix into a transformed window transparent to an application that originated the application window, the system comprising:

a desktop window manager on a computer system which transforms a window transmitted by the application for display to a transformed window on the display;

a redirection transform application interface coupled to the manager, wherein the redirection transform application performs an inverse transformation that results in a new frame region and performs hit detection on the new frame region; and

an external input coupled to the desktop window manager, wherein messages to and from the application pass through the transform interface to and from the manager to maintain transparency between the transformed display window and the application.

**Reasons for Allowance**

Art Unit: 2178

2. The following is an examiner's statement of reasons for allowance:

Regarding Claim 12, the computer system limitation has been added in order make it clear that the system is tangibly embodied on a machine, and not merely a computer program.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
